Determination of the level of lipid peroxidation in the brain of mice with paraquat intoxication. The level of lipid peroxidation in the brain of mice with paraquat intoxication was studied. The reaction between hemoglobin and H₂O₂ in the erythrocytes of control mice was used as a reference value for the estimation of lipid peroxidation in the brain. In the erythrocytes of mice with the early stages of paraquat intoxication, a non-significant increase in the levels of lipid peroxidation was observed. In the erythrocytes of mice with paraquat intoxication of the late stage, the level of lipid peroxidation was increased significantly. In the brain of mice with the early stages of paraquat intoxication, a non-significant increase in the level of lipid peroxidation was found. At the late stage of intoxication, a significant increase in the level of lipid peroxidation in the brain was observed./* * Copyright (c) 2003-2020, CKSource - Frederico Knabben. This map shows state and territory police forces in Australia that have received firearms powers to enforce the new national firearms laws. The AFP will have firearms powers from 1 July 2016. The Law Enforcement Support Agency will have firearms powers on the same date. On 11 November 2013, the Attorney General announced that the Commonwealth's new national firearms laws would be introduced on 1 July 2016. The Coalition's campaign on the Australian Federal Election's telethon on 7 September 2013, "Tough on crime, tough on drugs", included an announcement by Malcolm Turnbull of a public safety initiative to provide greater support to police officers. In a statement on 28 June 2014, Attorney-General George Brandis said 2d92ce491b
